MANY VICTIMS IN THE RUINS

RESCUE PARTIES AT
WORK AMONG WRECKAGE

Further Details of Accident at Albany,
in Which Number of Lives
Were Lost.

Albany, N. Y., Aug. 8.—The middle section of the big department store of the John G. Myers Company collapsed early this morning, carrying down with it over one hundred persons. Caught in a mass of brick, plaster and wooden beams, between twenty and thirty men, women and children met death in a multitude of horrible forms. Twelve hours' rescue work on the part of an army of firemen, and the work of the city's fire department, has not yet been completed. The bodies of the dead and injured were found in the wreckage. Three bodies are in sight, but many hours will be required to get them out. Anything like a complete list of the killed and injured will be unobtainable until the workers have made their way to the very bottom of the mass of wreckage.

With few exceptions those caught in the ruins are employees, and a large majority of them are girls. The catastrophe occurred shortly after the opening hour, when barely a score of shoppers were within the store.

A clock found in the debris had stopped at twelve minutes before 9, showing that it was at that time, the crash came.

The best account of the event that probably caused the ruin is given by the head of the crockery, glass and drug department, which occupied the basement. "The workmen were sawing at a wooden floor beam," said he, "which runs underneath one of the central pillars, in the middle of the store. Excavation for the cellar was going on about the base of the pillar, and I believe the jarring on the beam beneath it displaced the pillar.

"Two of the counters near the place where the men were working began to

Going for Chamberlain's Colic,
Cholera and Diarrhoea
Remedy.

Don't put yourself in this man's place, nor keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera, Malaria, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use.

When reduced with water and sweetened it is pleasant to take.

Your, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not have it now and be prepared for such an emergency? Price, 25 cents.

BRILLIANT PICTURE.

Decorated Warships Added to Success of the Regatta at Cowes.

Cowes, Aug. 8.—The regatta of the Royal Yacht Squadron opened today. The chief event was the race for King Edward's cup. Almost as great interest, however, centered in the race for 52-footers over the short Queen's course, which resulted in a victory for the Herreshoff built boat Sonya. The winner was followed in by the Morana, the Dufour, the Mayson and the Gannet in the order named.

Half a dozen boats started in the race for King Edward's cup, including Emperor William's American yacht Meteor, which was the scratch boat. The yacht Saturn soon took the lead, the Meteor following. The race was ultimately won by the Earl of Dunraven's Caraid, which had a handicap of 56 minutes, although which was the scratch boat. The yacht Byrrhild and the schooner Centuria finished ahead in the order named.

The Cowes regatta presented a brilliant picture from the bright sunshine. The warships are prettily decorated, and the yachts, including the American boats Atlantic, Hildegarde and Utovana, are ablaze with bunting. Hundreds of picnic lunches and other boats crowd the water, passing to and from the lines of French and British fleets. King Edward on board his old yacht, the Britannia, cruised about, watching the racing, in which much interest was also shown by the French visitors.

Vice-Admiral Collard, commander-in-chief of the French fleet, and other French officers, were guests at luncheon of the Royal Yacht Squadron, and spent the remainder of the afternoon attending a variety of social functions.

CANADIAN NOTES.

Another Destructive Fire at Montreal—Baseball Player's Death.

Montreal, Aug. 8.—Fire at noon today did damage estimated at over one hundred thousand dollars to the warehouse of the Lake of the Woods Milling Company, St. Dennis street.

Died From Injuries.

London, Aug. 8.—Duty Webb, right fielder of the Blue Label baseball team of this city, who was hit on the head by a pitched ball during the game between the Perrin Manufacturing Company team and Blue Labels yesterday, died of his injuries last night.

A Good Season.

Winnipeg, Aug. 8.—The present year is proving an exceptional one for the bee keeping industry in Manitoba, and which it fell the main support of the central part of the building was gone. With a noise that could be heard blocks away, and which shook the adjoining buildings like an earthquake, nearly half the great structure from cellar to roof, and extending from one side wall to the other, came grinding down.

Into this cavernous hopper slid scores of employees who were working on the four floors above and lacked the warning which enabled those in the basement to escape. Many, however, were apprised by falling plaster, and saved themselves by rushing to the front of the store or to the fire escape in the rear. Clouds of dust which shot out of the front entrance caused those outside to believe that the store was afire, and an alarm was immediately turned in. When the fire department arrived they had plenty to do in rescuing those who were pinned under the top wreckage.

They were joined by scores of volunteer rescuers, and within an hour fifteen or twenty persons were carried out, none of them fatally injured. In a short time the city's entire hospital and ambulance force was on the scene, aided by half a hundred doctors from all parts of the city. The volunteer rescuers and the firemen kept up the work until exhausted, when their places were taken by a wreckage force numbering 300 from the New York Central and Delaware & Hudson railroads. These delivered in the ruins all night, but the work of rescue progressed slowly. When night came it was estimated that nearly fifty persons still remained in the ruins, and not more than half of these could survive the weight pressing upon them. Fortunately the wreckage did not take fire.

Some hundred persons are yet unaccounted for, but fifty of these are cash boys of whom the firm has no account, and the loss of the payroll makes it difficult to obtain anything like a complete list. The company has 400 employees, but 50 of these are away on vacations.

THREE LIVES LOST.

Two Young Ladies Perished While Bathing—Blacksmith Drowned.

Grand Forks, Aug. 8.—Miss Agnes Ruckle and Miss Ida Anderson were drowned at 2 o'clock yesterday at English Point, some five miles from Lavalley's pleasure resort at Christina lake. A party consisting of Mrs. Wolverson, Miss Marjorie Wolverson, Miss Agnes Ruckle and Miss Ida Anderson, accompanied by Andrew Miller, foreman of the Cascade power house, were bathing at English Point when the accident happened. The bodies of the drowned girls were brought to Cascade. Miss Ruckle's remains will be shipped to Beaver Point, St. George Island, for home, for interment, while Miss Anderson's remains will be sent to her parents near Minneapolis, Minn. Both young ladies, school teachers, were at a picnic, and were swimming in the lake when they lost their lives.

A. W. Forney, a blacksmith who worked here recently for Joseph Simpson, was drowned yesterday at Midway while out fishing. He fell into the Kettle river, and drowned in three feet of water. At the time of his death he was employed as blacksmith for Fred Johnson, the well known railway contractor. It is supposed that he was overcome by the extreme heat, which accounts for his drowning in such shallow water.

NEGRO LYNCHED.

Taken From Jail After Sheriff, Deputies and Jailor Had Been Made Prisoners.

Waco, Tex., Aug. 8.—At 2 o'clock this morning mounted citizens, numbering 600, surrounded the court house and jail and making prisoners of Sheriff Tilley, the jailer, and all the deputy sheriffs, broke open the jail, took Hank Majors, colored, out, and after hearing his confession hanged him from the new bridge. Majors had recently been convicted of criminal assault, and was given the death penalty, but had been granted a new trial.

Waco, Tex., Aug. 8.—The first meeting of the provisional directors of the new Northern bank was held today, when stock was allotted. Applications were dated from Halifax to Vancouver.

MECHANICS, FARMERS, SPORTSMEN—To heal and soften the skin and remove grease, oil and rust stains, paint and tar spots. Use "The Master Mechanic" Tar Soap. Albert Toilet Soap Co., Mfrs.

BOMBARDERS BY RUSSIANS.

Destroyed Village in Crete Boengas Insurgents Opposed Landing of Boat Party.

Canea, Crete, Aug. 8.—The Russian gunboat Khmbray has bombarded and destroyed Canea on the north coast of the island of Crete because the insurgents there opposed the landing of a Russian force to take over the customs house. A boat party, which was sent ashore from the Khmbray, was repulsed, whereupon the Russian commander after warning the insurgents to remove the women and children opened fire. The insurgents returned the fire with small arms, wounding two Russians. The bombardment continued until the village hoisted the white flag.

PERSONAL. Advertisements under this head a cent a word each insertion.

PALMISTRY—A good palmist is nothing more or less than a person who has the talent to interpret the law of human progress—the law of cause and effect—which can be revealed by the map of your right hand. What you now you shall also read. Madame Sherry was cradled in the home of palmistry; left that for the mission field, where she spent seven years; left that for the field of the ancient philosopher, "Man know thyself." It was a knowledge of the cosmic truths of this science which led the wise men of the East to the birthplace of our Saviour, enabled Joseph to interpret Pharaoh's dream, and Daniel to read the handwriting on the wall at Babel's Feast. The Bible mentions the human hand 1,433 times. Have your life interpreted and be guided right. Room 11, Vernon Hotel.

WEDDED YESTERDAY.

Mr. Alfred McConnell and Miss Emily Holmes United in Wedlock.

The marriage of Mr. Alfred McConnell and Miss Emily Holmes took place yesterday afternoon at the residence of Mr. and Mrs. J. P. McConnell. The ceremony was performed by Rev. S. J. Thompson, pastor of the Centennial Methodist church.

The bride wore a travelling costume of brown broadcloth, trimmed with cream applique, with hat to match. She was given away by Mr. Wm. Sinden. The bridesmaid was Miss Kate Palmer, who was dressed in pale green, robe with cream trimmings and cream hat. The groom was supported by Mr. Humbert McConnell. Little Misses May Dinsdale, May McConnell and Adeline McConnell, brides of the groom, acted as flower girls.

About 25 guests were present, and after the ceremony a sumptuous supper was served before the bridal party left to take the steamer for the Sound.

The bride and groom are very popular in the city, as shown by the large number of beautiful presents of which they were the recipients. Mr. McConnell was

IS INTERESTED IN
HERRING INDUSTRY

Editor of Nairnshire Paper and Daughter Will Be in Victoria in a Few Days.

George Bain, editor and proprietor of the Nairnshire Telegraph, and Miss Bain will be in the city in a few days. They are making a trip through Canada and have stopped off at many of the principal points coming West. Everything they have seen has pleased them immensely, and the Dominion as a country surpasses what they expected.

Mr. Bain comes from the herring fishing district of Scotland, and is greatly interested in the prospects for the development of this resource of British Columbia waters. He states that in all probability there will be a large influx to this coast of Scotch herring fishers and curers, and the report of J. J. Cowie, the expert who is expected to visit this fall, is being awaited with interest by them.

"There is no reason," Mr. Bain stated in an interview, "why the herring fisheries of British Columbia should not be developed. You have plenty of fish, and there is no question about the market. Japan and other countries bordering on the Pacific will use all that can be exported. In Scotland the herring fisheries are the next greatest industry to agriculture. In the old days, the fishermen who live on the east coast, used to sail round to the west coast of Scotland, and follow the fish right round down the east coast to England. Now, however, with the advent of the steam fishing boats, which come rapidly to port, and discharging their cargoes, are again on the fishing grounds without delay, the old time fishermen are looking towards the coast. They have heard of the immense schools of herring here, and as soon as Mr. Cowie reports on will see some of the men out here. If they find conditions favorable, there will be quite a large immigration of fisher folk. The men do the fishing, while the girls and women curers, the herrings in the style which commands the highest prices in the world's markets. The only drawback in regard to the local fish is that the skin is softer, caused, I suppose, by the warmer waters of the Pacific, but Mr. Cowie thinks this can be overcome."

Mr. and Mrs. Bain are also interested in the salmon fisheries, and will take a look through the canneries. Mr. Bain is an archaeologist and an author of note. Two of his principal works are, "The History of Nairnshire," and "The Life of Lord Brodie, the Pulpit."

SCHOOL EXHIBIT.

At Dominion Fair—Its Nature and Conditions Governing It.

H. Dummell, superintendent of the manual training schools of the province, will leave next week for New Westminster to arrange the space for the school exhibit there. The nature of the display is explained in a circular, which will shortly be sent to the different teachers:

"The exhibition management will award diplomas for collective exhibits from the following classes of schools in British Columbia: (1) New grade rural schools; (2) graded rural schools; (3) city schools; (4) manual training and domestic science departments of the public schools; (5) schools other than the public schools; (6) kindergarten."

"The awards will be of three kinds—ordinary diplomas, diplomas with honors and diplomas with highest honors."

"Exhibits from the public schools must be representative of the three grades of the course of study, viz., junior, intermediate and senior, and as much as possible of all the subjects of these grades, respectively."

"Exhibits from schools other than public schools must be of such a character as to indicate as comprehensively as possible the general character of the regular work actually accomplished by the pupils."

"Entries in this department must be made not later than the 1st September. No entry fee will be charged."

"All exhibits must be forwarded to New Westminster not later than September 20th."

"It is hoped that the following suggestions and directions will be followed in the preparation and the forwarding of school exhibits:

"(a) Transportation—The exhibition management will refund all freight charges on exhibits, provided vouchers for the same are presented, certified by the secretary of the school exhibit committee. To insure prompt delivery of

Lea & Perrins'
Sauce

The original and genuine Worcestershire

By Royal
Warrant toHis Majesty
the King

Because the grocer's clerk says some "cheap" sauce is "just as good" as Lea & Perrins'—does not make it so.

The Connoisseur, the Epicure, the Bon Vivant, know there is only one Worcestershire Sauce—LEA & PERRINS'—with a 60 years' reputation behind every bottle.

exhibits in the exhibition grounds, these charges should be prepaid and all packages plainly marked 'School Exhibit,' and addressed to the secretary of the Dominion Exhibition, New Westminster.

"(b) Entries—These should be made not later than September 1st, so that the committee in charge can assign wall space. Each exhibitor should state the probable number of exhibits (size 5 feet by 20 inches) his school will forward, and further inform the secretary of the school exhibit committee whether or not exhibits are to be returned, and to whom.

"(c) Preparation of Exhibits—All paper work should be mounted on light green ingrained wall paper, 5 feet by 30 inches, each sheet of such work to be lightly attached to the mounting at all four corners. It is suggested that writing paper of uniform size be used, and the finished work affixed according to classes or grades; and that each sheet have name of school, as well as that of child, whose age should also be given, together with grade or class to which he belongs."

"To this circular it is requested that teachers return an early reply."

WATER IN YOUR BLOOD?

Lots of people have thin watery blood—they eat plenty but don't digest. When digestion is poor, food isn't converted into nourishment—in consequence the body rapidly loses strength. The positively-renewed health, nothing equals Ferronine. It excites sharp appetite—makes the stomach digest, forms life sustaining blood. Abundant strength is sure to follow. If you need more vitality, extra energy, increase, then use Ferronine. The medical triumph of the age. Fifty cents buys a box of fifty chocolate coated Ferronine tablets.

ARRANGEMENTS FOR

Y. M. C. A. EXCURSION

Preparations for the Annual Picnic on August 19th Discussed at Meeting of Directors.

A meeting of the board of directors of the Young Men's Christian Association was held yesterday afternoon at the rooms, Broad street, when a number of important matters came up for consideration. After the usual routine business, the advisability of holding an excursion at an early date was discussed. The proposal met with favor and it was decided that the outing would take place under the auspices of the association on the 19th instant. The steering committee of the excursion will be in all probability will make a trip among the Gulf Islands, stopping for about an hour or thereabouts at Ganges harbor, Salt Spring Island, where a programme of field sports, a baseball match and other pastimes will be indulged in. The excursion has yet to be definitely decided upon, and will be discussed at a meeting of the executive being held this afternoon. The Cecilia orchestra will be engaged to provide music for the occasion, and wishing like to contribute to the enjoyment of those attending will be omitted.

This having been decided upon, the directors discussed the prospects for the winter season. The secretary announced that the membership was larger than ever before, and that the different classes in connection with the organization would be reopened in the course of a couple of months. He predicted the brightest season since the inception of the local branch of that organization, and referred to the progress being made by the Y. M. C. A. throughout the province, as shown by the following from the Revelstoke Herald:

"George Irving, field secretary for the Canadian West of the Y. M. C. A., has been in the city for the past week arranging for the establishment of a branch association here and for the erection of a suitable building for the purposes of the association. On Sunday afternoon about fifty people attended a meeting in Selkirk hall, when Mr. Irving addressed the gathering on the work of the association in different parts of Canada and the United States. A committee was appointed to look after subscriptions for the building fund and who are now at work with splendid success. The C. P. R. railway employees' committee have guaranteed to raise \$5,000, of which \$2,700 has already been secured. The city committee's list now aggregates about \$3,500, and an effort is being made to raise the total to \$10,000 by Saturday night. The C. P. R. company will be asked for a free site and financial assistance. The amount required for the projected building is \$15,000. The movement is meeting with every encouragement from the business men as well as the employees of the railway and lumber mills. The ladies of the city, too, are interesting themselves, and in consequence of all working together success should be assured."

The Pope on Tuesday received in private audience Edward J. Sullivan, American consul at Trebizond, Turkey, and E. Martin, his secretary. The Pope was most cordial, and sent his salutations to President Roosevelt. He expressed the most fervent desire that peace should be concluded between Russia and Japan, and said that President Roosevelt was entitled to the thanks of the whole civilized world for his efforts to bring the bloody conflict to a close.

PORTLAND FAIR.

Attendance For Sixty-Three Days, June 1st to August 2nd, Fools Up 1,013,551.

Portland, Ore., Aug. 5.—The Portland fair has been reached and passed in the record of attendance at the Lewis & Clark exposition. When the 27,420 admissions of August 2nd were added to the aggregate since the fair opened on June 1st, it was found that in sixty-three days 1,013,551 gate admissions had been recorded by the turnstiles.

Before the fair opened there were those who said, "Well, if you have a million attendance during the four and a half months of your show you will be doing very well." The management, of course, expected a total considerably in advance of this, but nobody was sanguine enough to count upon a million during the first two months. With more than half the exposition period still to run, it is now the popular prophecy that at least 2,500,000 will be reached.

The attendance, by weeks, up to August 2nd, has been as follows: June 1st to June 7th, inclusive, 90,275; June 8th to 14th, inclusive, 100,724; June 15th to 21st, inclusive, 108,842; June 22nd to 28th, inclusive, 85,916; June 29th to July 5th, inclusive, 141,415; July 6th to 12th, inclusive, 115,324; July 13th to 19th, inclusive, 113,737; July 20th to 26th, inclusive, 131,384; July 27th to August 2nd, inclusive, 126,124.

The extra attendance for the week from June 29th to July 5th was due to the large number of admissions on the 4th of July. Since then, as a perusal of the figures shows, the attendance has increased constantly.

Poultry Show.

The first poultry exhibition representative of the whole Pacific Northwest will be held in connection with the Lewis & Clark exposition in October, the dates being from the 5th to the 11th of the month, inclusive. The prizes offered to successful exhibitors are on a scale which should encourage generous participation.

Edith Rosa Kent, 14 years old, was crushed to death in a gas engine in her father's barn at Jamestown, N. Y., on Tuesday. The girl stood watching the machine and became so interested in its workings she did not notice her hair was becoming entangled in the machinery. In an instant she was jerked into the mass of revolving wheels and the engine only stopped because her mangled body clogged the wheels. She was dead when taken out.

B. C. DRUG STORE

27 Johnson Street, Tel. 330.

J. TEAGUE, Proprietor.

A band concert will be given by the Fifth Regiment band this evening at the new park of the B. C. Electric Railway Company. The railway company has made arrangements for handling the large crowd which is expected without inconvenience.

The past members of the Victoria Fire Brigade will meet on Tuesday night, the gathering having been postponed from last evening. A full attendance is desired as arrangements are to be made for the reception of the veteran members of California on August 18th. It is proposed to hold a parade in connection with the visit.

In addition to entering to the local trade, the Moore & Whittington Lumber Company have just completed arrangements to ship in scow load quantities choice cedar to American firms. Arrangements have been made with a West Coast logger to supply logs from an exceptionally good cedar claim. The company have also purchased a logging outfit and expect to have a camp in operation before the end of the month.

W. W. Walker, who came in from Peddar Bay a few days ago, tells of a desperate attack of what is commonly known as a black fish on a number of small whales which were sporting themselves in the bay. No sooner had the former made his appearance than he made at a whale. The attack was sudden and terrific and from the start it was seen that the whale was getting the worst of the fight. It was not given a chance to rise to the surface and all that could be seen was the tail lashing the water into geyser formations. The black fish continued his tactics until every whale in the bay disappeared.

The Frick Investigating committee, N. Y., on 2nd June, 1935, reported as follows: "In its purity the ideal insurance company has but two objects: (1) To furnish absolutely perfect protection to its policyholders, and (2) To furnish that protection at the lowest possible cost." Two Mutual Life of Canada comes fully up to this high ideal: (1) Because the government Blue Books show, this company has the very lowest expense rate of any Canadian company; (2) Because it holds a higher reserve than the government standard calls for, in gilt-edged securities. A. B. McNeill, special agent; R. L. Drury, manager, 34 Broad street.

Andrew Sanson, foreman of Tarpe's shipyard, had an exciting struggle with an octopus near Brochle lodge on Friday last. He was salmon trolling in a small boat when his line became entangled in the arms of a huge devil fish. The devoured monster was drawn up to the side of the boat while Mr. Sanson was trying to free the line. The fish caught a hold on the boat and would have capsized it did he not use his knife pretty freely. The feelers which had fastened themselves to the boat were cut off, and in order to prevent accident Mr. Sanson was obliged to cut his line as well. The arms he took ashore and he has them as a souvenir of the struggle. Mr. Sanson estimates that the fish measured about 18 feet from tip to tip.

The cable for the Salt Spring Island telephone has arrived at Maple Bay and is being loaded on a scow preparatory to being laid for active service.

E. W. Clarke, B. A., of this city, has received the appointment as principal of the High school at Cumberland. Mr. Clarke comes well recommended, says the Enterprise. He is a graduate of McMaster University, Toronto.

Large numbers continue to patronize the semi-weekly excursions among the Gulf Islands on the V. & S. and steamer Iroquois. These outings are increasing in popularity, as it becomes known that a whole day can be spent in travelling through ever changing scenery with great comfort. Admirers of nature find in these trips recreation and rest.

A distinguished Orangeman will arrive in the city this evening in the person of Mr. Wm. Walsh, of Brampton, Ontario, sovereign grand chaplain of the order in British North America. He will deliver a number of lectures, while in the city, and on Sunday morning next will occupy the pulpit of St. John's church.

A conference will be held this afternoon between the city council and Mr. Lauber, manager of the Esquimalt Waterworks, relative to the water question. It will be remembered that the company declined the council's offer of six hundred thousand dollars for their property, but undertook to meet the civic board and discuss the subject generally.

Yesterday the committee having in hand the awarding of the Flumerfelt scholarship met at the educational department. Applications were received from four candidates—Dyke and Larsen of New Westminster; Price, of Vancouver, and Clearhine, of Victoria. The committee will meet on Saturday next at 3 o'clock for the purpose of interviewing the applicants personally. It is expected a decision will be reached the same afternoon.

City School Superintendent F. H. Eaton is daily receiving a large number of applications for permits to establish schools upon the opening of the term. How the newcomers are to be accommodated is a puzzling question, and it is altogether likely that many youngsters will have to wait until there is an opening before they can be put through their initial paces in school work. The superintendent will not promise that those who delay in applying for permits can gain entrance. The school board will meet in regular monthly session this evening, when the question of extra school days until the 21st will come up for consideration.

C. P. R. HOTEL.

Rapid Progress Being Made—Delay in Finishing Vancouver Building.

The big steel beams that are projected into the air on the C. P. R. hotel site show that the workmen are progressing rapidly—so rapidly that they will permit. When Mr. Marjole was here the other day he expressed himself satisfied with the strides made, so there is no reason to doubt that the work will be completed by the appointed time. Vancouver is not lucky with tower hotels, and the Province on behalf of the company makes the following explanation:

"The local authorities of the C. P. R. have stated to the Province in regard to the article in Saturday's issue, objecting to the delay in the reconstruction of the Hotel Vancouver, that it was deemed best in the interest of the city as well as of tourist travel, to postpone the re-erecting of the building until the hotel at Victoria should be completed. It was the original intention to begin the work of rebuilding last fall, but the very reasonable expectation of an unusual amount of travel during the present summer, owing among other things, to the fair at Portland, decided the management to put it off until other accommodations could be provided for the throng of visitors to this city. It was quite obvious that if the accommodation to which this travel is accustomed could not be provided either here or in Victoria the province would be the loser to that extent, as the visitors would go right through to Seattle or Portland. Accordingly it was decided to have the hotel at Victoria, which is now under way, finished and ready to accept guests before a start should be made on the building in Vancouver. In pursuance of the plan thus determined on the work of reconstruction of the Hotel Vancouver will begin in 1937, when the big hotel at the capital will be completed, and be in operation. The program undoubtedly has business shrewdness to recommend it, and the people here will have to wait as patiently as possible until the time when the work on the company's hotel in this city can be undertaken without interfering with business."

JAPANESE DROWNED.

Fisherman in the Water Twenty Minutes and Did Not Revive.

A Japanese was drowned Monday night at Steveston. He was climbing down from a cannery wharf when he fell into the water. He probably struck his head in his descent, for he made no effort to swim. He was in the water twenty minutes before his companions managed to catch hold of his clothing and bring him to the surface. Efforts were made to resuscitate him but without avail.

MONTH OF JULY A RECORD BREAKER

During the month of July The British Columbia Permanent Loan and Savings Company made seventy-seven new loans, and advanced the sum of \$75,672.20. This is a record which very few companies in Canada can beat, and it certainly cannot be equaled by any company of a similar age. The day has at last arrived when the Pacific coast can show Eastern Canada how to do business on a large scale.

There is living in Beale, near Peninsula a child of five and a half years of age who is 4 feet 2 inches in height, and who boasts a moustache and a deep bass voice.

BACK FROM SKAGWAY.

Early this morning the steamer Princess May returned from Skagway. She brought among her passengers J. A. Anderson, the auditor-general, and a half dozen tourists. One of the passengers, debarking at Vancouver was S. H. Graves, president of the White Pass & Yukon railway.

The steamer called at Simpson, and from there, as also from River's Inlet, a large number of fishermen were taken to Alert Bay. Canneries on the Skeena have been paying off a number of their laborers, having completed their season's pack.

Northern mail advices received through the return of the Princess May report that W. B. McInnes, the new commissioner of the Yukon, has left Dawson on a comprehensive tour of all the creeks in the immediate neighborhood of that city. With Mr. McInnes are Mr. Justice Macquinn, Sheriff Elphick, A. J. Beaudette, S. A. D. Bertrand, and Major Wainwright.

A fire occurred in the McDonald Iron Works of Inawson on the 31st of July, when damage was done to the amount of \$12,000.

TO-DAY'S EXCURSION.

Upwards of two hundred were aboard the steamer Charnier when she sailed this morning on the excursion given under the auspices of the Ladies' Auxiliary of the Jubilee hospital in aid of the proposed children's home. It had been intended to take the excursionists to Sooke but as the wind was blowing fresh down the straits it was decided just before the steamer sailed to change the route. Instead of inspecting the fish traps on the Vancouver Island shore the excursionists will be given the opportunity of seeing the traps on San Juan Island. It is thought the steamer will not return before 7 o'clock.

FULL CARGO.

"Steamship Minnesota will sail Thursday morning with all the cargo she can carry and containers left on the dock," says the Seattle Times. "This is a showing significant of the growth of the Seattle route to Oriental ports, and the fact that the boycott of Chinese merchants of American goods has not yet affected shipments from this port."

THE CREW SAVED.

Late news from Japan, via San Francisco, into the effect that the entire crew of the American ship A. G. Ropes was saved. It was reported the other day that the vessel had become a total loss, but no further particulars were given. Now it appears that the ship, while bound from Honolulu for Baltimore, ran into such tremendous storms that she was totally demolished and the hull badly damaged. After being towed into Kobe the vessel was condemned.

MARINE NOTES.

On her trip North the Pacific Coast Steamship Company's liner Queen disabled a boiler, which detained her eight hours on the voyage.

The C. P. R. steamer Tartar sailed for the Orient yesterday with 25 saloon passengers and 40 Orientals; also a full cargo.

The steamer Wynerick is loading the first full cargo of lumber to be sent from the Puget Sound country for Panama, where it will be used in the canal.

Steamers Trader and Orion are on the ways in the upper harbor; the former on the cradle of the Victoria Machinery Depot and the latter in Turpin's yard.

PERSONAL.

Following are the arrivals at St. Alice hotel: Harrison Hot Springs: Mr. and Mrs. F. G. Welch, Mr. and Mrs. E. H. Howard, Gibson, J. B. Haddad, K. MacDonald, J. J. Botting, F. T. Salisbury, O. Stewart, August Schwann, J. C. Smith, L. Robinson, the Misses Robinson, J. S. Wood, Miss E. Wood, S. Weaver, Mr. and Mrs. S. Blackson, Wm. Smith, Vancouver; W. G. Graham, New Westminster; A. Simpson, Nanaimo; Rev. F. R. Forges, Cloverdale; Mrs. L. D. Chetham, Miss L. Blackwell, Mrs. S. Blackwell, Mrs. B. J. Perry, Miss Keppock, C. H. Aronson, Mr. and Mrs. Frank Welch, Mrs. and Miss Harlock, Victoria; W. G. Graham, Spangum; Miss Benson, Whistler; Mr. and Mrs. W. F. Alloway, Port D. W. Melber, mid. Mr. and Mrs. John F. Fisher, child and nurse, Winnipeg; J. W. Haddon, Brandon; J. G. Crossley, Newdale; Mr. and Mrs. D. H. McDonald, Port Qu'Appelle, Sask.; Hon. Sidney Trench, Calgary, Alta.; Mrs. J. McKeon, Miss E. Egan, Spokane, Wash.; S. Goldstein, Miss Goldstein, E. J. Howe, Mr. and Mrs. W. H. Lewis, Miss Rita Le-Roller, Mrs. W. G. Benson, S. B. Hill, Seattle; P. M. Liddy, C. A. Harrison, N. J. AUCTIONEER

—The Ladysmith Lumber Company will move its mill from Fiddick's Junction to a place near Ladysmith. This is done for the purpose of bringing the mill more closely in touch with the timber available for manufacture. Mayor Colman, the manager of the mill, is in Victoria to-day. Speaking of the closing of the coal mines at Nanaimo, Mr. Colman says that the effects are felt also at Ladysmith. A feeling of fear prevails in Ladysmith with respect to the amendment to the Coal Mines Act which brought about the trouble at Nanaimo. In consequence of the same everyone shows at disposition to curtail expenses to the absolute necessities, and business is therefore injuriously affected.

rather freely. So far the visitors have not seen the James Bay "Big Four" working in earnest. Last evening all the Portland stalwarts lined up facing the club house, on the causeway expecting to see the locals leaving the club house at a fast clip. But they were doomed to disappointment. Noticing the interest their movements created, the Bays decided not to give them a sample of their speed, but to remain dark horses as long as possible. They, therefore, paddled away from the club house at a moderate rate, and the Portland carmen, turned away with natural disgust.

Not a member of the association who takes an active interest in the forthcoming regatta looks forward to an easy victory for the James Bays in any of the events in which they are scheduled to compete. It is generally acknowledged that the Nelson, Portland and Vancouver clubs have strong representatives, and that any races in which they are entered will have to be fought for from the first to the last crack of the pistol.

Of course it will be the endeavor of officials of the James Bay Athletic Association to give the visitors a good time during their stay here. Already they have given expression to a deep appreciation of the services rendered them by coach Dan O'Sullivan in accommodating and rigging their shell in order to suit the comparatively open water of Esquimalt harbor. In addition to rendering them every possible courtesy arrangements have been made for a smoking concert on the evening of Saturday, at which the visitors will be the guests of honor. An splendid musical programme is in course of preparation, and a good time is promised those attending.

For the convenience of spectators the popular excursion steamer City of Nanaimo has been engaged to sail from the C. P. R. dock at 1:30 p. m. on Saturday, and will steam up and down Esquimalt harbor, maintaining the best point of vantage to witness the different races from start to finish, while the Fifth Regiment band will be on board to entertain the afternoon's outing. The fare for the round trip has been placed at fifty cents, and as the steamer can comfortably accommodate five hundred passengers there will be ample room for all. On the return trip the steamer will leave Esquimalt after the conclusion of the regatta.

In connection with the list of events it might be explained that those of Friday are all junior N. P. A. A. O. races, while Saturday's programme includes both the N. P. A. A. O. senior and J. B. A. A. annual regatta competitions. Saturday, the final and most important day of the regatta, will be marked by a four mile competition, the chief feature of the meet. The first races will be brought off at the time mentioned in the following programme, while those without any specified hour will take place when most convenient during the progress of the regatta. The programme follows:

Friday.
2:30 p. m.—Junior singles, 1 1/2 miles straightaway.
3 p. m.—Junior four-oared championship, 1 1/2 miles straightaway.
3:30 p. m.—Junior doubles, for C. A. Harrison cup, 1 1/2 miles straightaway.
Saturday.
2 p. m.—Double dingy race, open to naval marines.
2:15—First heat in lapstreak fours for Flumerfelt cup, open to members of J. B. A. A. (1) W. T. Andrews (stroke); R. W. Power, F. Baylis, V. A. Wolfenden; (2) T. R. Nixon (stroke), C. Jackson, E. Robinson, J. Y. Simpson.
2:30—Second heat for Flumerfelt cup: (1) G. Simpson (stroke), T. Watson, R. MacIn, R. Jesse; (2) V. Gray (stroke), H. Lang, F. C. Clarke, E. A. Hiscoks.
2:45—Senior doubles for Challenger & Mitchell cup, 1 1/2 miles straightaway.
3 p. m.—Senior fours, Buchanan cup, 1 1/2 miles straightaway.
3:35 p. m.—Singles for Flumerfelt cup.
3:40—Senior singles, Hudson Bay cup, 1 1/2 miles straightaway.
Tandem canoes, ladies, open, cruising canoe.
Tandem canoes, open, racing canoe.
Four-oared gigs, open to H. M. forces.
Junior single skills, 1 mile, Mallandaine cup, open to members of J. B. A. A.
Four paddle canoe, open.
Double dingy, lady coxswain, boats limited to 14 feet in length.
Single paddle canoe, lady passenger.
Upset canoe race.
Tilting match, 16 feet oars.

—Wives sometimes object to life insurance, widows never do. How is it in your case? Have you made provision for your family so that in the event of anything happening to you they will at least have something to fall back on? If you have not, then don't delay any longer. Let us show you the new contract of the Canada Life. No better policy, no better company can be found anywhere. A policy in it pays. Heisterman & Co., general agents.

LOCAL NEWS.

—J. A. Anderson, auditor-general, returned last night for the Princess May after a trip to Atlin and Port Simpson, inspecting the government office on his way.

—The regular meeting of the W. C. T. U. will be held at the Y. M. C. A. parlors to-morrow afternoon at 2 o'clock. A full attendance is requested. The president would like to meet the executive at 2 o'clock at the same place.

—A meeting of the Northwest Oil Company was held yesterday afternoon at the head office, 88 Government street, when the following officers were elected: President, Hon. W. J. Snodgrass, Okanagan Falls; vice-president, Elliott S. Rowe, Victoria; secretary and treasurer, A. Maxwell Muir, C. E., Victoria; manager, David A. Kelly, Seattle; directors, T. M. Henderson, David Black and R. E. Bittancourt, of Victoria. Mr. Kelly, the company's expert, and a gentleman with a great reputation in his specialty oil lands, was commissioned to proceed at once to the company's property in Southern Alberta and thoroughly examine it. The property adjoins that of the Rocky Mountain Oil Company, a concern which is already marketing a big lot of first class oil, of which it appears to have a practically unlimited supply.

—Between ten and fifteen thousand fish were taken into the cannery at Esquimalt from Messrs. Todd & Munroe's salmon traps down the straits last evening. No fish was made by the Capital City Cannery & Packing Company's traps, and there will be none to-day. The water is too rough to permit of any of the traps being operated to-day. On the Fraser on Monday ten thousand fish were transported in coxswain from the straits to the wharf at Ladner. All the big plants of the river have been glutted

12 LANGLY STREET.

Free reading room for seamen and seafaring men. Open daily from 10 a. m. to 10 p. m. Sunday, 2 to 5 p. m.

It is admitted by the greatest authorities that the Mason & Risch Piano is one of special merit. The principles of construction are distinct from all others, and after a careful examination into these you will not have

Opinions regarding its superior qualities. We want you to compare it with other pianos.

"THAT METALIC TONE" is what every one dislikes in a piano.

Some pianos that sound very well when they are new, develop that quality after a few years' use. It is natural that HEAVY METAL BRIDGES will produce a HARD METALIC TONE. THEREFORE AVOID the piano with too much metal around the bridge. The Mason & Risch

PATENTED PIN BLOCK is stronger than any other, and does not require the support of a heavy metal bridge.

The Mason & Risch TONE will constantly improve with use. Call on us and we will explain fully.

We are offering special

BARGAINS

During this month as we must have room for TWO CARLOADS which are coming.

We also have two slightly used pianos which can be bought very cheap and on easy terms.

Hicks & Lovick Piano Co.,
